$\begin{array}{c} {\rm McGill~University} \\ {\rm Department~of~Mathematics~and~Statistics} \\ {\rm MATH~141~Calculus~2} \\ {\rm Fall~2015} \end{array}$

Instructor: Dr. Amy Pang

Office: BURN 1243

Email: cy.amy.pang@mcgill.ca

Textbook: Stewart, Single Variable Calculus (Early Transcendentals Edition), Eighth Edition, Brooks Cole. The student solutions manual is strongly recommended. If you are planning to eventually take Calculus 3 (MATH 222) or Intermediate Calculus (MATH 262) then buy the full calculus text: Stewart, Calculus (Early Transcendentals Edition), Eighth Edition, Brooks Cole.

Syllabus:

- Integrals (Sections 5.1–5.5).
- Applications of Integration (Sections 6.1–6.3, 6.5).
- Techniques of Integration (Sections 7.1–7.5, 7.8).
- Further Applications of Integration (Sections 8.1–8.2).
- Parametric Equations and Polar Coordinates (Sections 10.1–10.4).
- Infinite Sequences and Series (Sections 11.1–11.7).

Assessment: Assessment for the course is based on the following:

Final Exam: The final examination will be of 3 hours duration. There is no "additional work" option and the grade of incomplete will not be given. A supplemental exam will be available for students registered in a faculty that supports the concept.

Assignments: There will be a number of assignments during the semester delivered using the internet-based WebWork system. It is the student's responsibility to check the WebWork site from time to time to check for assignments to be completed. The URL for WebWork for MATH 141 is

http://msr02.math.mcgill.ca/webwork2/MATH141_FALL2015/

It is recommended that you bookmark this page.

Quizzes: There will be three quizzes during the semester given in the tutorial sessions. Students may only take the quizzes in the tutorial section in which they are registered. As the quizzes are optional (see explanation below), there will be **no** makeup quiz.

Assessment: Your course mark will be determined by the following formula:

14% WebWork Assignments + 21% Quizzes + 65% Final Exam

Note that there is **no** 100% Final Exam option; WebWork will always count for 14% of your grade. The quizzes, however, are optional in the following sense:

Each of the 3 quizzes will count for 7% of the grade but only if the the grade obtained on that quiz exceeds the grade obtained on the final exam. Otherwise the quiz will not count and an extra 7% of weight will be put on the final exam.

- **Example 1:** A student obtains 74% on quiz 1, 65% on quiz 2, 76% on quiz 3 and 71% on the final. Only quizzes 1 and 3 will count for 7% of the grade each and the final will count for 72% of the grade.
- **Example 2:** A student obtains 75% on quiz 1, 78% on quiz 2, 73% on quiz 3 and 82% on the final. None of the quizzes will count and the final will count for 86% of the grade.
- **Tutorials:** The tutorials are an integral part of this course. They will start the week of September 13 and will continue until the end of the term. Attendance is compulsory.
- Academic Integrity: McGill University values academic integrity. Therefore all students must understand the meaning and consequences of cheating, plagiarism and other academic offences under the Code of Student Conduct and Disciplinary Procedures (see http://www.mcgill.ca/integrity/ for more information).
- **Language Policy:** In accord with McGill University's Charter of Students' Rights, students in this course have the right to submit in English or in French any written work that is to be graded.
- Extraordinary Circumstances: In the event of extraordinary circumstances beyond the University's control, the content and/or evaluation scheme in this course is subject to change.
